## Professional Experience

05/2023 – Present  
Hyderabad, India  
(Remote)

**Gruham.ai | Platform connecting homeowners with designers for seamless interior design project management.** [🔗](#)

*Full Stack Web Developer*

- Built real-time communication features (chat, reels, live streaming) to enhance user engagement and facilitate seamless interaction between homeowners and designers.
- Engineered frontend optimizations, reducing initial load times by 75% and significantly improving the user experience.
- Developed and maintained backend services using Express.js, MongoDB, and Supabase, ensuring efficient data flow and reliable system performance, and CI/CD automation with GitHub Actions.
- Implemented scalable architecture with reverse proxy routing and optimized data fetching using RTK Query, and the Context API, enhancing app performance and routing efficiency.

## Skills

### Languages

HTML, CSS, JavaScript, Python, C/C++

### Databases

MongoDB, MySQL, PostgreSQL

### Frameworks & Libraries

React, Next.js, Redux, Zustand, Tailwind CSS, Node.js, Express.js, Fastify, FastAPI, Socket.io, PassportJS

### Developer Tools

Git, VS Code, Chrome Dev Tools, Postman, GitHub, Bitbucket, Jira, Trello, Figma, MongoDB Compass

### Cloud Services

AWS (EC2, Lambda, Amplify, S3, CloudFront), DigitalOcean, CloudFlare Workers, Firebase, Supabase

### Integrations & Automation

Stripe, Razorpay, SSLCommerz, AI integration, Github Actions (CI/CD), Docker

## Projects

**BestDeal | Next.js, Node.js, MongoDB, TypeScript, Stripe, AI, Cloudinary** [🔗](#)

*Full-stack e-commerce platform with real-time analytics and dynamic store management*

- Developed an intuitive administrative dashboard for store management along with multi-channel notifications
- Implemented payment processing via Stripe and a JWT-based authentication system for multi-role access.

**InsightAI | Next.js, Node.js, TypeScript, Stripe, Multi-Model AI, MongoDB, Qdrant** [🔗](#)

*Enterprise AI Knowledge Assistant with secure multi-tenant management and subscription billing*

- Developed an AI platform with secure authentication and RBAC where admins host/assign corporate documents, enforce access controls, and enable users to query knowledge with rich context-aware responses.
- Built dashboards for usage tracking, quota control, role-based limits, data-leak alerts and Stripe subscription.

## Education

09/2021 – 09/2025  
Dhaka, Bangladesh

**Bachelor of Science in Computer Science and Engineering**

*Daffodil International University (3.55 CGPA)*
